PROFESSIONAL SUMMARY

Dynamic all-rounder leading innovation in high-speed ecosystems with experience in AI-powered solutions (prompt engineering, AI Prompt Analyst, Prompt Evaluator), full-stack development, and cross-functional leadership. Led 10+ client projects, managed 20+ strategic client relationships, and mentored 50+ interns to drive team productivity. Created 30+ technical sessions enabling 1000+ students to adopt emerging technologies and forward-thinking. Built IEEE Student Branch (200+ members) and led IEDC MACE as CEO, organizing 20+ workshops, 5 hackathons, and 5 industry-academia collaborations. Uncovered military leadership potential with 5 SSB shortlists. Experienced in integrating strategic vision, technical delivery, and collaborative problem-solving to create scalable impact.

TECHNICAL SKILLS

- **Programming Languages:** C, C++, Java, Python
- **Web Development:** HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, React, WordPress, Wix Studio
- **Frameworks & Libraries:** React, Bootstrap, Tailwind CSS
- **Backend Technologies:** Spring Boot, JDBC, Servlet, JSP, REST APIs
- **Databases:** MySQL, Firebase
- **Version Control & Deployment:** Git, GitHub, Netlify, Vercel, GitHub Pages, Infinityfree, Cpanel
- **Tools & Platforms:** Figma, Canva, Excel, Tableau, PowerPoint, Word, VS Code, IntelliJ IDEA, Postman, Chrome DevTools, Microsoft 365, Google Colab, Jupyter Notebook, Hugging Face, Google Workspace (Docs, Sheets, Slides), Zoom, etc
- **Operating Systems:** Windows, Kali Linux, Ubuntu
- **Areas of Expertise:** UI Design, Web Mining, Cybersecurity, Website Development & Optimization, SEO, Cross-Browser Testing, Responsive Design, Termux, Kali Linux Commands and Tools
- **Additional Skills:** Computer Hardware Assembly, Basic Augmented Reality with 3D Elements, Internet of Things (IoT) Basics, Canva Design

SOFT SKILLS

Leadership & Initiative, Team Management, Critical Thinking, Problem Solving, Communication, Public Speaking, Adaptability, Time Management, Strategic Planning, Client Relationship Management, Interviewing & Mentoring, Decision Making, Multitasking, Event Coordination & Execution, Fast Learner, Presentation, Strategic Thinking, Creativity & Innovation, Conflict Resolution, Active Listening, Emotional Intelligence, Negotiation & Persuasion, Stress Management, Customer-Centric Mindset, Cross-Cultural Sensitivity, Change Management, Relationship Building, Networking, Delegation, Accountability & Responsibility, Self-Motivation & Drive.

WORK EXPERIENCE

FULL STACK DEVELOPER & CROSS-FUNCTIONAL LEAD

Agileinfo Techytern Solutions LLP | *Sep 2024 –Present*

- Developed and sustained scalable web applications using HTML, CSS, JavaScript, React, and Java (Spring Boot) with full-stack frontend-backend integration.
- Led end-to-end client collaboration on 10+ projects, translating business requirements into scalable technical deployments through structured analysis and Agile methodologies.
- Applied required cyber security practices, enhancing awareness and system security.
- Guided 50+ interns, speeding up onboarding and skill acquisition. Organized 5+ technical workshops at partner colleges, increasing brand visibility by 40%. Assisted HR functions by interviewing, screening, and onboarding candidates, facilitating seamless team integration.
- 25% enhanced processes using AI solutions (automated tasks, prompt engineering, code optimization)
- Simplified the recruitment process by screening, interviewing and inducting high performers to enhance the developmental team's capacity.
- Respected for leadership, flexibility, and combining operations and technical functions in a startup setting.

AI PROMPT ANALYST & EVALUATOR (Freelance)

Soul AI | Remote | *Apr 2025 –Present*

- Completed more than 50+ LLM comparison tasks, evaluating instruction alignment, factuality, coherence, and tone.
- Completed side-by-side structured analysis and compared output against a 12-point rubric.
- Assessed code-based responses and use of tools/API like Google Maps, Python, YouTube to check logic, syntax, and method correctness. Verified code and API/tool usage (e.g., Python, Google Maps, YouTube) for accuracy and reasoning.
- Provided thoughtful commentary on model behavior, edge cases, and failure modes to inform tuning and benchmarking performance across new LLM variants.

MARKETING INTERN

Reverttech IT Solutions LLP | Feb 2023 – Jul 2023

- Nurtured digital marketing initiatives with content development, social media management, and market research.
- Helped with SEO campaign planning and optimization to increase brand exposure.
- Worked with cross-functional groups, sharpening communication and creative abilities.

ACHIEVEMENTS & LEADERSHIP EXPERIENCE
